

**DONKEY IgM whole molecule - 016-0107**
**Code:** 016-0107

**Size:** 1 mg

**Product Description:** DONKEY IgM whole molecule - 016-0107

**Concentration:** 0.85 mg/mL by UV absorbance at 280 nm

**PhysicalState:** Liquid (sterile filtered)

<b>Label</b>	Unconjugated
<b>Buffer</b>	0.1 M Tris Chloride, 0.5 M Sodium Chloride, pH 8.0
<b>Stabilizer</b>	None
<b>Preservative</b>	0.1% (w/v) Sodium Azide
<b>Storage Condition</b>	Store vial at 4° C prior to opening. This product is stable 4° C as an undiluted liquid. Dilute only prior to immediate use. For extended storage mix with an equal volume of glycerol, aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing.
<b>Synonyms</b>	Donkey IgM whole molecule
<b>Application Note</b>	Donkey IgM whole molecule can be utilized as a control or standard reagent in Western Blotting and ELISA experiments.
<b>Background</b>	Immunoglobulin M is the largest antibody isotype and the first to be secreted against an initial exposure to antigen. IgM is predominantly produced in the spleen. Formed from covalently linking 5 immunoglobulins together, the approximate molecular weight of IgM is 900kDa and possesses 10 binding sites (though due to the size of most antigens, not all sites are capable of binding at once). Due to this large size, IgM is typically isolated to the serum. Donkey IgM whole molecule is ideal for investigators in Immunology, Microbiology, and Cell Biology.
<b>Purity And Specificity</b>	This product was prepared from normal serum by a multi-step process which includes delipidation, selective precipitation and tandem molecular sieve chromatography followed by extensive dialysis against the buffer stated above. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Donkey Serum and anti-Donkey IgM ( $\mu$ chain specific). No reaction was observed against anti-Donkey IgG F(c). Some light chain cross reactivity will occur with anti-Donkey IgG.
<b>Assay Dilutions</b>	User Optimized
<b>ELISA</b>	User optimized
<b>Western Blot</b>	User optimized
<b>Other Assays</b>	User Optimized
<b>Expiration</b>	Expiration date is one (1) year from date of opening.
