Peptide sequence	Amino - H I E R R V pS N A G L S - amid
Description	Control phosphopeptide for monoclonal antibody VASP-5C6 against phospho-VASP (pSer157).
Formulation	100 µg lyophilized phosphopeptide trifluoroacetate salt
Reconstitution	Reconstitute with 1 ml H ₂ O (15 min, RT).
Storage	Lyophilized peptide can be stored below -20°C for 2 years from delivery. Upon reconstitution, aliquote and freeze in liquid nitrogen; reconstituted phosphopeptide can be stored frozen at -80°C up to 1 year. Thaw aliquots at 37°C. Thawed aliquots may be stored at 4°C up to 1 week. Avoid repeated freeze / thaw cycles.
Application	For competition experiments start with 200 fold molar excess of the blocking peptide. e.g.: 0,2µg/ml mab and 10µg/ml peptide (MW 2000)
