## USP33 Antibody

| Rabbit Polyclo                                     |  | d   | Protein ID | NP_055832.3  |  |
|--|--|---|------------|--|--|
| Antigen Affinity Purified<br>Catalog No. A300–925A |  |   |            |  |  |
| Catalog No.<br>Lot No.                             |  |   | GenelD     | 23032  | BETHYL                                   |
| Lot No. A300–925A–1                                |  |   |            |  | LABORATORIES, INC                        |
| APPLICATIONS                                       |  | WB, IP, IHC   |            |  |  |
| SPECIES REACTIVITY                                 |  | Human   |            |  |  |
| PRESUMED REACTIVITY                                |  | Based on 100% sequence identity, this antibody is predicted to react with Mouse, Bovine and<br>Orangutan  |            |  |  |
| AMOUNT   |  |   |            |  |  |
| CONCENTRATION                                      |  | 1000 µg/ml  |            |  |  |
| STORAGE/SHELF LIFE                                 |  | 2 - 8° C / 1 year from date of receipt  |            |  |  |
| PHYSICAL STATE                                     |  | Liquid  |            |  |  |
| BUFFER   |  | Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09% Sodium Azide  |            |  |  |
| ISOTYPE  |  | IgG   |            |  |  |
| ORIGIN   |  | USA   |            |  |  |
| PRODUCTION<br>PROCEDURES                           |  | Antibody was affinity purified using an epitope specific to USP33 immobilized on solid support.   |            |  |  |
|  |  | The epitope recognized by A300–925A maps to a region between residue 900 and the C-<br>terminus (residue 942) of human Ubiquitin Specific Peptidase 33 using the numbering given in<br>entry NP_055832.3 (GeneID 23032).                              |            |  |  |
|  |  | Immunoglobulin concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG.  |            |  |  |
| APPLICATIONS                                       |  | Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.   |            |  |  |
|  |  | Western Blot  | 1:2        | ,000 - 1:10,000  |  |
|  |  | Immunoprecipi   | tation 2 – | 5 µg/mg lysate   |  |
|  |  | Immunohistoch   |            | 00 – 1:2,000. Epitope retrie<br>ommended for FFPE tissue s | val with Tris–EDTA pH 9.0 is<br>ections. |
| APPLICATION NOTES                                  |  | Western blot of immunoprecipitates performed using Normal Pig Serum (Cat. No. S100–020),<br>Goat anti–Rabbit Light Chain HRP Conjugate (Cat. No. A120–113P) and 4–8% SDS–PAGE<br>(link to IP–western blot protocol in Additional Info section below). |            |  |  |
| IHC HUMAN CONTROLS                                 |  | Western blot of lysates performed using standard western blot reagents and 4–8% SDS-PAGE.<br>Breast Carcinoma, Ovarian Carcinoma, Prostate Carcinoma  |            |  |  |

Detection of human USP33 by western blot and immunoprecipitation. Samples: Whole cell lysate from HeLa (5, 15 and 50 µg for WB; 1 mg for IP, 20% of IP loaded) and HEK293T (T; 50 µg) cells. Antibodies: Affinity purified rabbit anti-USP33 antibody A300-925A used for WB at 1 µg/ml (A and B) and used for IP at 3 µg/mg lysate (B). USP33 was also immunoprecipitated by rabbit anti-USP33 antibody A300-924A, which recognizes an upstream epitope. Detection: Chemiluminescence with exposure times of 3 minutes (A and B).

Detection of human USP33 by immunohistochemistry. Sample: FFPE section of human ovarian carcinoma. Antibody: Affinity purified rabbit anti- USP33 (Cat. No. A300-925A Lot1) used at a dilution of 1:1,000 (1µg/ml). Detection: DAB
