## **QARS** Antibody

| Rabbit Polyclonal<br>Antigen Affinity Purified |                      | ed  | Protein ID     | P47897.1               |  |
|--|----------------------|---|----------------|------------------------|--|
| Catalog No.                                    | atalog No. A304–752A |   | GenelD         | 5859                   | RETUVI                                       |
| Lot No. A304-752A-1                            |                      | 752A-1  |                |                        | LABORATORIES, INC                            |
| APPLICATIONS                                   |                      | WB, IP  |                |                        |  |
| SPECIES REACTIVITY                             |                      | Human, Mouse  |                |                        |  |
| PRESUMED REACTIVITY                            |                      | Based on 100% sequence identity, this antibody is predicted to react with Bovine  |                |                        |  |
| AMOUNT   |                      | 100 µl  |                |                        |  |
| CONCENTRATION                                  |                      | 1000 μg/ml  |                |                        |  |
| STORAGE/SHELF LIFE                             |                      | 2 - 8° C / 1 year from date of receipt  |                |                        |  |
| PHYSICAL STATE                                 |                      | Liquid  |                |                        |  |
| BUFFER   |                      | Tris-citrate/phosphate buffer, pH 7 to 8 containing 0.09% Sodium Azide  |                |                        |  |
| ISOTYPE  |                      | lgG   |                |                        |  |
| ORIGIN   |                      | USA   |                |                        |  |
| PRODUCTION<br>PROCEDURES                       |                      | Antibody was affinity purified using an epitope specific to QARS immobilized on solid support.  |                |                        |  |
|  |                      | The epitope recognized by A304-752A maps to a region between residue 725 to 775 of human<br>Glutaminyl-tRNA Synthetase using the numbering given in entry P47897.1 (GeneID 5859).   |                |                        |  |
|  |                      | Antibody concentration was determined by extinction coefficient: absorbance at 280 nm of 1.4 equals 1.0 mg of IgG.  |                |                        |  |
| APPLICATIONS                                   |                      | Centrifuge tube to remove product from lid. Optimal working dilutions should be determined experimentally by the investigator. Prepare working dilution immediately before use.   |                |                        |  |
|  |                      | Western Blot  | 1:2            | 2,000 - 1:10,000       |  |
|  |                      | Immunoprecipi   | itation 2 -    | - 10 µg/mg lysate      |  |
| APPLICATION NOTES                              |                      | Western blot of immunoprecipitates performed using Normal Pig Serum (Cat. No. S100-020),<br>Goat anti-Rabbit Light Chain HRP Conjugate (Cat. No. A120-113P) and 4-8% SDS-PAGE<br>(link to IP-western blot protocol in Additional Info section below). |                |                        |  |
|  |                      | Western blot of lysates performed using standard western blot reagents and 4-8% SDS-PAGE.   |                |                        |  |

Detection of human and mouse QARS by western blot. Samples: Whole cell lysate (50  $\mu$ g) from HeLa, HEK293T, Jurkat, mouse TCMK-1, and mouse NIH 3T3 cells prepared using NETN lysis buffer. Antibodies: Affinity purified rabbit anti-QARS antibody A304-752A (lot A304-752A-1) used for WB at 0.1  $\mu$ g/ml. Detection: Chemiluminescence with an exposure time of 3 minutes.

## Detection of human QARS by western blot of

**immunoprecipitates.** *Samples:* Whole cell lysate (0.5 or 1.0 mg per IP reaction; 20% of IP loaded) from 293T cells prepared using NETN lysis buffer. *Antibodies:* Affinity purified rabbit anti-QARS antibody A304-752A (lot A304-752A-1) used for IP at 6 µg per reaction. QARS was also immunoprecipitated by rabbit anti-QARS antibody BL18516. For blotting immunoprecipitated QARS, A304-752A was used at 0.4 µg/ml. *Detection:* Chemiluminescence with an exposure time of 30 seconds.
