

Detection of human UBFD1 by western blot of immunoprecipitates. *Samples:* Whole cell lysate (0.5 or 1.0 mg per IP reaction; 20% of IP loaded) from 293T cells prepared using NETN lysis buffer. *Antibodies:* Affinity purified rabbit anti-UBFD1 antibody A305-143A (lot A305-143A-1) used for IP at 6 μ g per reaction. UBFD1 was also immunoprecipitated by rabbit anti-UBFD1 antibody A305-142A. For blotting immunoprecipitated UBFD1, A305-143A was used at 1 μ g/ml. *Detection:* Chemiluminescence with an exposure time of 30 seconds.
