

## BOVINE/CALF PLASMA (sterile) in Potassium EDTA - D500-05-0050

| Co   | de: D500-05  | -0050  | <b>Size:</b> 50 mL                   |  |
|--|--|--|--------------------------------------|--|
| Product Description: BOVINE/CALF PLASMA (sterile) in Potassium EDTA - D500-05-0050 |  |  |                                      |  |
| Concentration: 85 mg/mL by Refractometry   |  |  |                                      |  |
| PhysicalState  | PhysicalState: Liquid (sterile filtered)   |  |                                      |  |
| Label  | Unconjugate  | ed   |                                      |  |
| Stabilizer   | None   |  |                                      |  |
| Preservative   | None   |  |                                      |  |
| Storage Condition  | Store container at -20° C prior to opening. Avoid cycles of freezing and thawing. Use aseptic technique to maintain sterility when opening product.  |  |                                      |  |
| Synonyms   | bovine plasma in Potassium EDTA, sterile plasma from bovine with anticoagulant Potassium EDTA, sterile bovine plasma   |  |                                      |  |
| Application Note   | pH: normalImmunoelectrophoresis: normalHemoglobin: normalIgG Concentration: normal   |  |                                      |  |
| Expiration   | Expiration date is one (1) year from date of opening.  |  |                                      |  |
| Sex  | Mixed  |  |                                      |  |
| Strain   | Bovine/Calf - Mixed  |  |                                      |  |
| Anti-Coagulant   | Potassium EDTA   |  |                                      |  |
| Sterilization  | This product was aseptically filtered through a Millipore 0.22 micron filter into clean, pre-sterilized containers. The product was tested on trypticase soy agar for 24 hours, 48 hours and 72 hours and was found to be negative for bacteria. |  |                                      |  |
