## DIACLONE Immunology Products

### CD62E ELISA Kit

Human CD62E ELISA kit

|                         |                                                              |
|-------------------------|--------------------------------------------------------------|
| <b>CATALOGUE N° :</b>   | 850.530.048, 850.530.096, 850.530.192                        |
| <b>SPECIFICITY :</b>    | Recognizes both natural and recombinant human soluble ELAM-1 |
| <b>RANGE :</b>          | 1.0 ng / ml - 32 ng / ml                                     |
| <b>SENSITIVITY :</b>    | < 0.5 ng / ml                                                |
| <b>INCUBATION :</b>     | 2h10                                                         |
| <b>SAMPLE TYPES :</b>   | Serum<br>Plasma<br>Cell culture supernatant                  |
| <b>SAMPLE SIZE :</b>    | 100 µl                                                       |
| <b>CROSS REACTION :</b> | No cross reactivity with other human adhesion molecules      |
| <b>KIT SIZE :</b>       | 48 (Discovery), 96, 192 tests                                |

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |

Version 13 - 06.17

For research use only

### 25 YEARS OF EXPERTISE

With over 25 years experience and extensive expertise we are committed to providing excellence in Monoclonal Antibody and Immunoassay development.

The expanding range of Diacclone Immunology products is specifically designed to advance research applications.

Our experience and expertise coupled to the diversity of our product range makes Diacclone a clear choice to
