

Human Aggrecan AccuSignal ELISA Kit - KOA0548

Code: KOA0548

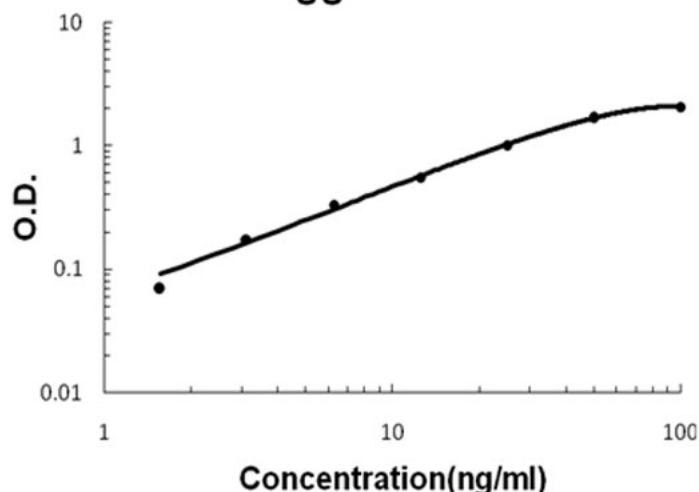

Size: 1 Kit

Product Description: Human Aggrecan AccuSignal ELISA Kit - KOA0548

PhysicalState:

Label	Unconjugated
Gene Name	ACAN
Species Reactivity	Human
Storage Condition	Store vials at 4°C prior to opening. Centrifuge product if not completely clear after standing at room temperature. This product is stable for 6 months at 4°C as an undiluted liquid. Dilute only prior to immediate use. For extended storage freeze at -20°C or below for 12 months. Avoid cycles of freezing and thawing.
Synonyms	ACAN, AGC1, AGCAN, Aggrecan 1, Aggrecan core protein, Aggrecan proteoglycan, Aggrecan structural proteoglycan of cartilage, Aggrecan1, ATEGQV, Cartilage specific proteoglycan core protein, Chondroitin sulfate proteoglycan 1, Chondroitin sulfate proteoglycan 1 large aggregating proteoglycan antigen identified by monoclonal antibody A0122, Chondroitin sulfate proteoglycan core protein 1, CSPG1, CSPGCP, JSCATE, Large aggregating proteoglycan, mcspg, mgsk16, MSK16, SEDK
Application Note	Useful in Sandwich ELISA for Quantitative Detection of Antigen. Aliquot 0.1ml per well of the 100ng/ml, 50ng/ml, 25ng/ml, 12.5ng/ml, 6.25ng/ml, 3.12ng/ml, 1.56ng/ml human Aggrecan standard solutions into the precoated 96-well plate. Add 0.1ml of the sample diluent buffer into the control well (Zero well). Add 0.1ml of each properly diluted sample of human cell culture supernates, serum or urine to each empty well. It is recommended that each human Aggrecan standard solution and each sample be measured in duplicate.
Background	Aggrecan, also known as cartilage-specific proteoglycan core protein (CSPCP) or chondroitin sulfate proteoglycan 1, is a protein that in humans is encoded by the ACAN gene. It is a critical component for cartilage structure and the function of joints. Aggrecan provides intervertebral disc and cartilage with the ability to resist compressive loads. The localized high concentrations of aggrecan provide the osmotic properties necessary for normal tissue function with the GAGs producing the swelling pressure that counters compressive loads on the tissue. This functional ability is dependent on a high GAG/aggrecan concentration being present in the tissue extracellular matrix. Also, Aggrecan plays an important role in the organization of the extracellular spaces between neurons in the brain.
Purity And Specificity	Natural and recombinant human Aggrecan. There is no detectable cross-reactivity with other relevant proteins.
ELISA	1.56ng/ml-100ng/ml
Expiration	See kit insert for complete instructions.
Immunogen	Expression system for standard: NSO; Immunogen sequence: V20-G675
