### Product Information

Product ID N342688  
CAS No.  
Chemical Name  
  
Synonym  
  
Formula  
Formula Wt.  
Melting Point  
Purity  
Solubility

### Pricing and Availability

*Bulk quantities available upon request*

Product ID	Size
N342688	20 Tests

Store Temp -20°C  
Ship Temp Blue Ice

**Description** FLIVO® (FLuorescence in vivo) is a powerful method for non-invasive detection of caspase activity in vivo. NIR-FLIVO® 690 Tracers are non-cytotoxic, cell-permeant fluorescent inhibitors of caspases optimized for use in whole live animals. The NIR-FLIVO 690 Tracer probe contains the preferred binding sequence for most caspases (Val-Ala-Asp or VAD). This preferred poly caspase tripeptide binding sequence is labeled with \*Dylight® 690 dye and a fluoromethyl ketone (FMK) reactive entity.

FLIVO® is a registered trademark of Immunochemistry Technologies, LLC. \*Dylight® is a registered trademark of Thermo Fisher Scientific, Inc. and its subsidiaries.
