### Pricing and Availability

*Bulk quantities available upon request*

Product ID	Size
P982698	25-50 Tests
P982698	100-200

Store Temp 4° C

Ship Temp Blue Ice

**Description** Pyroptosis/Caspase 1 Assay, Green utilizes the popular FLICA technology to measure caspase-1 activation. Using this kit, researchers can easily detect the pyroptotic cells in their whole cell samples in vitro. This complete kit includes Nigericin for the simple and reliable generation of a positive control. Analyze the green fluorescent signal using fluorescence microscopy, a fluorescence plate reader, or by flow cytometry.
