Product Information

Product ID T3101

CAS No. 24769-58-2

Chemical Name

Synonym TRH, Thyrotropin-releasing factor, TRF, Protirelin,

Thyroliberin

Formula C₁₆H₂₂N₆O₄

Formula Wt. 362.4

Melting Point

Purity ≥95%

Solubility Soluble in DMSO.

H-pGlu-His-Pro-NH2

Pricing and Availability

Bulk quanitites available upon request

Product ID	Size	List Price
T3101	5 mg	\$63.00
T3101	10 mg	\$107.00
T3101	25 mg	\$189.00

Store Temp -20°C Ship Temp Ambient

Description Thyrotropin-releasing hormone (TRH) is an endogenous tripeptide that acts as a neurotransmitter and neurohormone. TRH regulates hypothalamic-pituitary-adrenal (HPA) and estrogenic signaling pathways. TRH exhibits immunomodulatory and neuroprotective activities. TRH prevents oxidative stress, caspase-mediated apoptosis, glutamate toxicity, and neuroinflammation. Additionally, TRH stimulates epidermal regeneration in ex vivo models, increasing would healing. TRH activates the TRH receptor.
