

Glutaminase (GLS) BioAssay™ ELISA Kit (Mouse)

Catalog number

025357

Supplier

United States Biological

Glutaminase (GLS) BioAssay™ ELISA Kit (Mouse) is a sandwich enzyme immunoassay for in vitro quantitative measurement of GLS in mouse tissue homogenates and other biological fluids.

Detection Range

0.156-10ng/ml

Sensitivity

0.048ng/ml

Storage and Stability

Desiccation recommended. The Standard, Detection Reagent A, Detection Reagent B and the 96-well strip plate should be stored at -20°C upon receipt. Store all other reagents at 4°C. Stable for 6 months after receipt of order.

Specificity

Mouse

Storage

4°C/-20°C

Tests

0.048ng/ml

Sensitivity

100ul

Sample Volume

Tissue homogenates and other biological fluids

Sample Matrix

0.156-10ng/ml

Detection Range

Colorimetric

Antigen Modification

Mouse

Antigen Source

4896
