

## **ZNF256, ID (ZNF256, BMZF3, Zinc finger protein 256, Bone marrow zinc finger 3) (FITC)**

### **Catalog number**

044167-FITC

### **Supplier**

United States Biological

Transcriptional repressor that plays a role in cell proliferation. Requires TRIM28 for its activity.

### **Applications**

Suitable for use in Western Blot, FLISA

### **Recommended Dilution**

FLISA: 1:1,000

Western Blot: 1:100-500

### **Storage and Stability**

Store product at 4°C if to be used immediately within two weeks. For long-term storage, aliquot to avoid repeated freezing and thawing and store at -20°C. Aliquots are stable at -20°C for 12 months after receipt. Dilute required amount only prior to immediate use. Further dilutions can be made in assay buffer. Caution: FITC conjugates are sensitive to light. For maximum recovery of product, centrifuge the original vial after thawing and prior to removing the cap.

### **Note**

Applications are based on unconjugated antibody.

### **Immunogen**

ZNF256 antibody is generated from rabbits immunized with a KLH conjugated synthetic peptide between 202-229 amino acids from the Central region of human ZNF256.

### **Formulation**

Supplied as a liquid in PBS, pH 7.2. No preservative added. Labeled with Fluorescein isothiocyanate (FITC).

### **Purity**

Purified by Protein A affinity chromatography.

### **Specificity**

Human

### **Product Type**

Pab

### **Source**

human

**Isotype**

IgG

**Grade**

Affinity Purified

**Applications**

FL WB

**Crossreactivity**

Hu

**Storage**

-20°C

**Detection Method**

FITC
