4.2d	Eye contact: Ingestion:		None known.		
4.3	Indication of any immedia special treatment needed		No additional inform	mation available.	
4.3a	Notes to physician/first responder:		Treat symptomatical protective equipme	ally. Refer to Sections 5-8 for advice on personal ent.	
	on 5: Firefighting measures				
5.1	Extinguishing media:		appropriate for the	flammable. Use fire-extinguishing media surrounding materials.	
5.1a 5.1b	Suitable extinguishing me Unsuitable extinguishing n	nedia:	Water spray, foam, dry powder, or carbon dioxide. None known.		
5.2	Special hazards arising mixture:		No dangerous read	This product is a liquid and is not flammable. Product is not explosive. No dangerous reactions known under normal conditions of use.	
5.2a	Hazardous combustion products:		In case of fire, toxic gases may be formed of carbon monoxide (CO), carbon dioxide (CO ₂ ; COx), and nitrous gases (NOx). None under normal conditions.		
5.2b			No unusual fire or explosion hazards noted.		
5.2c			Use protective equ	ipment appropriate for surrounding materials.	
5.3	Advice for firefighters:				

HRP Conjugate Stock Stabilizer, 5X SDS; Doc# F17-52-2-E; Effective: 03/04/2020; Supersedes: F17-52-2-D; Page 3 of 7 5.3a Special firefighting procedures: Use water spray or fog for cooling exposed containers. Exercise caution when fighting any chemical fire. Do not dispose of fire-fighting water in the environment. 5.3b Special protective equipment and precautions for Do not enter fire area without proper protective equipment, including firefighters: respiratory protection. Wear self-contained breathing appartus and protective suit (see Section 8). Section 6: Accidental release measures Personal precautions, protective equipment, and Use protective equipment appropriate for surrounding materials. emergency procedures: No specific emergency measures are required other than good 6.1a General release measures: laboratory hygiene and safety practices for small spills. Wear suitable protective clothing, gloves and eye or face protection. Consult professional emergency personnel if concerned (see Section 8). 6.1b Advice for non-emergency personnel; personal No specific emergency measures are required other than good laboratory hygiene and safety practices. Wear suitable protective precautions, protective equipment and emergency procedures: clothing, gloves, eye or face protection to avoid contact with skin, eyes, and personal clothing; use an approved supplied-air respirator, in case of emergency (also refer to Section 8). Ensure adequate ventilation and control mist. Avoid breathing vapors, mist, or spray. Evacuate personnel to safe areas. Wear suitable protective clothing, gloves and eye or face protection to prevent any contamination. Consult professional emergency personnel if concerned. 6.1c Advice for emergency responders: personal Wear suitable protective clothing, gloves and eye or face protection to precautions, protective equipment and emergency avoid contact: use an approved supplied-air respirator, in case of procedures: emergency (also refer to Section 8). 6.2 **Environmental precautions:** Do not allow to enter drains, sewers, or watercourses. May be harmful to the environment if large amounts are released. 6.3 Methods and materials for containment and Contain any spills with dikes or absorbent materials to prevent clean up: migration and entry into sewers or water sources. Use a licensed waste disposal contractor for disposal (see Section 13). Wash spill area thoroughly with plenty of soap and water. Avoid contact with skin or inhalation of spillage or vapor. 6.4 Reference to other sections: Refer to Sections 8 and 13 for additional information. Section 7: Handling and storage Precautions for safe handling: Do not handle until all safety precautions have been read and 7.1 understood. Avoid creation of aerosols or mist. Avoid inhalation of vapors or mist. Prevent contact with skin and eyes. Use appropriate personal protection equipment (PPE). Thoroughly wash hands and contaminated areas with water and soap before leaving the work site. Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. 7.1a Prevent handling of incompatible substances or Avoid contact with strong acids and strong oxidizers. mixtures: 7.1b Do not eat, drink, or smoke in work areas. Wash hands after use. Advice on general occupational hygiene: Remove contaminated clothing and protective equipment before entering eating areas. Good personal hygiene is necessary. Follow good laboratory hygiene and safety practices. 7.2 Conditions for safe storage, including any Refer to product label. Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened incompatibilities: must be carefully resealed and kept upright to prevent leakage. Avoid spills and release into the environment; keep away from watercourses. 7.3 Specific end use(s): Product intended for research use or for further manufacturing into in vitro diagnostics reagents only. Not intended for use in human or therapeutics purposes. Section 8: Exposure controls/personal protection 8.1 Control parameters: Occupational exposure limits, such as chemical 8.1a Not applicable. identity, standard, TWA-8 hours (time weighted average), STEL-15 minutes (short term exposure limit), etc.: WEL = Workplace Exposure Limit. Sk = can be absorbed through skin. Appropriate engineering controls: 8.1b 8.1c Individual protection measures, such as personal Wear gloves, protective goggles, and lab coat.

Wear apron or protective clothing in case of contact. 8.2f Skin protection: Use suitable protective gloves if risk of skin contact. 8.2g Hand protection: 8.2h Respiratory equipment: Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU). Other protection: 8.2i Wear appropriate clothing to avoid skin contact. DO NOT SMOKE IN WORK AREA! Wash at the end of each work shift 8.2j Hygiene measures: and before eating, smoking, and using the toilet. Promptly remove any clothing that becomes contaminated. Use appropriate skin cream to prevent drying of skin. When using do not eat, drink, or smoke. Wash promptly with soap and water if skin becomes contaminated. 8.2k Thermal hazards: None known under normal conditions of use. 8.21 Environmental exposure controls: Not determined. Section 9: Physical and chemical properties Information on basic physical and chemical 9.1 properties: 9.1a Appearance (physical state, color, etc.): Liquid; clear to light yellow. 9.1b No specific data.
